living conditions and movements.

## Appendix D Cause of Action

There was money being taken out of my trust fund account  
Dates 11-8-19 and 12-12-19  
for services I never requested  
and incidents I was found not  
guilty of. The money was never  
put back. Several attempts through  
Request of Staffs, grievances,  
and verbal talks with captains, Lt,  
and jail staff was unanswered.

I was attacked by a Detention  
Officer while I was in the  
shower twice. First in 2019  
Not sure the Date but medical  
log book can provide that. And  
second on 5-18-20. The Officer  
who's name is P. Smith  
walked up on me while I was  
in the shower and sprayed  
me with his pepper spray  
because I wasn't getting out  
of the shower fast enough.  
On two different incidents  
he walked up behind me and  
sprayed my back, head, and face,  
while I was no threat to him or

anyone else and gave me a very bad

anyone else, both incidents are on videotape.

Public Defender Nicole Burns withheld information from me about my case and also gave me false information about the case, I asked her to file motions and help me with my defense and she refused.

Putting me in danger by putting me in living conditions or on pods with gangs, races, and staff members that I have had physical conflicts with in the past. Threats being made to me by staff members about what they're going to do to me and my safety. Videotaped evidence include dates around 7-26-19 through 8-14-19.

Racial Discrimination, assault, Refusal of my pleas for legal library, showers, rec sleeping on floor, cleaning supplies, Bed Bugs attacking me and medical telling me they don't have anything for it. pictures of the bites are on computer at the jail.
